

# DEPARTMENT OF MATHEMATICS

## YEARLY PROFESSIONAL & COMMUNITY DEVELOPMENT PLAN

Professional and community development requirements are described in the Math Graduate Program Handbook: <https://www.math.arizona.edu/files/grad/HandbookMath.pdf> starting on p. 14. It is expected that students devote on average 1-2 hours per week on these, but the time can be blocked together as a training or workshop; the distribution of the hours is flexible and the view is long term (for instance, there may be one semester where the student takes on a larger commitment like Grad Rep while other semesters they may do less). These plans will be reviewed by the Graduate Committee to be sure that the plans meet the requirement and are not too ambitious.

NAME OF STUDENT:

---

ADVISOR:

---

(PLEASE PRINT)

DATE:

---

BRIEFLY DESCRIBE THE PLANS FOR YOUR PROFESSIONAL DEVELOPMENT:
